

Scatter plot showing heart rate (b/min) on the y-axis (ranging from 100 to 190) versus time (minutes) on the x-axis (ranging from 0 to 45). The plot includes a legend indicating that red dots represent 'incorrect / changed' data and green dots represent 'correct / changed' data. Vertical lines mark specific time points: Thu 14:29, Fri 01:30, and rest periods of 60 minutes, 53 minutes, and 39 minutes. The data shows a general upward trend in heart rate over time, with a significant increase after the 39-minute rest period.
