

Scatter plot showing the number of correct and incorrect/changed answers over time for a quiz. The x-axis is 'minutes' (0 to 100) and the y-axis is 'number of answers' (0 to 100). A vertical blue line marks 'Fri 05:12' at 0 minutes. Red dots represent 'incorrect / changed' answers, and green dots represent 'correct / changed' answers. The data shows a steady increase in correct answers over time, with a few incorrect answers scattered throughout.
