

The scatter plot displays the performance of a group of students over a 150-minute period. The x-axis represents time in minutes, and the y-axis represents the number of answers. A vertical blue line at 0 minutes indicates the start time of 01:28. Red dots represent incorrect or changed answers, while green dots represent correct or changed answers. The data shows a steady increase in the number of correct answers over time, with a significant jump around 110 minutes. There are also several instances of incorrect answers, particularly in the first 100 minutes and around 120-130 minutes.

Minutes	Incorrect / Changed	Correct / Changed
0	1	1
5	1	1
10	1	4
15	1	5
20	0	1
25	0	1
