

Scatter plot showing the number of correct and incorrect answers over time for a group of students. The x-axis represents time in minutes (0 to 90), and the y-axis represents the number of questions (0 to 25). A vertical blue line marks the start time at 03:55. Data points are colored red for incorrect and green for correct answers. The plot shows a steady increase in correct answers over time, with a significant jump around 60 minutes.
