

Scatter plot showing the number of correct and incorrect answers over time for a group of participants. The x-axis represents time in minutes (0 to 170), and the y-axis represents the number of answers (0 to 100). Red dots indicate incorrect or changed answers, while green dots indicate correct or changed answers. A vertical red line at 96 minutes marks the end of the first 36-minute rest period. A vertical blue line at 128 minutes marks the end of the second 36-minute rest period. The plot shows a general upward trend in the number of correct answers over time, with a significant increase after the second rest period.
