

Scatter plot showing the number of correct and incorrect answers over time for a 150-minute test. The x-axis represents minutes (0 to 150), and the y-axis represents the number of answers (0 to 15). Red dots indicate incorrect or changed answers, while green dots indicate correct or changed answers. Vertical lines mark the start (0 min), end (150 min), and a 72-minute rest period. The plot shows a rapid increase in correct answers in the first 10 minutes, followed by a slower, more erratic increase in incorrect answers.
