

Scatter plot showing the number of correct and incorrect/changed answers over time for a 20-item test. The x-axis represents minutes (0 to 190) and the y-axis represents the number of items (0 to 20). Red dots indicate incorrect or changed answers, while green dots indicate correct or changed answers. A vertical blue line marks the 00:12 time point. The data shows a general upward trend in correct answers over time, with a significant increase in correct answers after 160 minutes.
