

Scatter plot showing the number of correct and incorrect/changed answers over time for a 100-item test. The x-axis represents minutes (0 to 160), and the y-axis represents the number of items (0 to 100). Red dots indicate incorrect / changed answers, and green dots indicate correct / changed answers. Vertical lines mark the start of the test (0 min), the end of the test (120 min), and the end of the session (150 min). The plot shows a steady increase in correct answers over time, with a significant jump in incorrect/changed answers around 110 minutes.
